Decision: Denied

Reason: “The submitted records do not document a trial of a preferred biologic as required by policy LHP-RX-114 section 3.4. The medication history provided lists no prior biologic therapy.”

Criteria 3.1, 3.2 and 3.3 were met on the records received. Section 3.4 requires a trial of at least one preferred biologic (an infliximab product or an adalimumab product) with inadequate response, loss of response or intolerance, unless contraindicated, and the documentation must name the agent and the outcome. You may request a copy of the policy and the records used in this decision free of charge.
