Harbor Patient Aid Foundation

An independent charitable foundation | (888) 555-0149 | harborpatientaid.example

Immune Conditions Fund: Grant Guidelines

Effective 01/01/2026 | Fund status: open to new applicants

Who can apply

Insured patients with an inflammatory bowel disease (ulcerative colitis or Crohn's disease), psoriasis or atopic dermatitis diagnosis.

• Household income at or below 500% of the federal poverty level.

• Any insurance type, **including Medicare**, Medicare Part D, Medicare Advantage and Medicaid. The patient must have insurance that covers the treatment.

• US residents receiving treatment in the United States.

Grant amount

Up to **$10,000 a year** toward out-of-pocket costs (deductibles, copays and coinsurance) for medications that treat the covered diagnosis. Grants run for 12 months from approval and may be renewed if funds remain.

How to apply

Apply by phone or online. A pharmacy, provider or financial counselor may apply for the patient with the patient's consent. Have ready: the patient's insurance information (member ID, Rx BIN, PCN and group), the diagnosis, the prescribed drug, household size and an income attestation. Most decisions are made the same business day.

How payments work

Pharmacies bill the foundation as secondary to the patient's plan using the grant ID issued at approval. Patients may also submit receipts for reimbursement within 90 days of the date of service.

Independence

The foundation is independent of drug manufacturers, pharmacies and health plans. Donations do not affect who receives a grant, and grants do not depend on the drug, pharmacy or provider the patient uses. A patient may not receive help from the foundation and a manufacturer copay program for the same cost.

Grant amounts in this document are synthetic demo values.
