Vedolizumab Patient Savings Program

Program terms and conditions | Effective 01/01/2026

Administered by Bayline Patient Services
(888) 555-0148 | Fax (888) 555-0150
vedolizumabsavings.example

Eligible

Commercially insured US residents prescribed vedolizumab for an FDA-approved use. Applies to the subcutaneous pen and to intravenous infusions.

Not eligible

Anyone with Medicare, Medicaid, TRICARE, VA or any other federal or state health program coverage, **"even if they also have commercial insurance."** Patients without insurance and patients paying cash are not eligible. Patients who are not eligible may contact an independent charitable foundation for help with out-of-pocket costs.

Program benefit

The patient pays **$5 per pen fill or infusion**; the program pays the rest of the patient's out-of-pocket cost up to **$20,000 a year** (per calendar year). The program does not cover the administration fee for an infusion unless the infusion site bills it with the drug.

Copay accumulators and maximizers

"If the plan uses a copay accumulator or maximizer, program payments may not count toward the deductible." The program may adjust the annual maximum for plans that use a maximizer.

How to enroll

Enroll online, by phone or by fax. A pharmacy or provider may enroll for the patient once the patient has given consent. Enrollment requires every field below.

Patient name	Patient date of birth	Address
Phone	Member ID	Rx BIN
Rx PCN	Rx group	Prescriber NPI
Patient consent (checkbox)	Consent date	

Enrollment ID and claims

Each enrollment receives an ID in the format **VSP-26-xxxxx**, valid through 12/31/2026. Pharmacies bill the program as secondary to the patient's plan: BIN 999902, PCN VSPCOPAY, group VSP2026, ID = enrollment ID. Infusion sites send the plan's explanation of benefits to the fax number above for payment.

Patient consent

Before enrollment, the patient must agree that the program administrator may receive information about the patient's prescription and insurance to run the program, and that the patient will tell the program if they gain any federal or state health program coverage. Consent is recorded with its date.

Other terms

• This program is not insurance. • Patients may not seek reimbursement for the same cost from any other source. • The program may change or end at any time without notice. • Void where prohibited by law. • Re-enroll each calendar year.

Program figures in this document are synthetic demo values.
